

As an experienced front-end developer with a strong passion for GIS, I continuously keep expanding my skills in both web development and geographic information systems. With hands-on expertise in GeoDjango, React, and Leaflet, I aim to combine my technical skills and passion for geographic information systems to deliver impactful GIS solutions for web development.

SKILLS

Frontend: HTML, CSS, Javascript, React, , Tailwind, Sass, GraphQL, Nextjs

Backend: Python, Postgres, , Django, Nodejs

GIS : Arcgis Pro, Arcgis Online, Geodjango, PostGIS, Leaflet

Version Control: Git

Ming-Chuang University, Taiwan 09/2004- 01/2007

CERTIFICATE

- **AWS Cloud Practitioner**
2020-Nov-25 2023-Nov-25

WORK EXPERIENCE

FRONTEND DEVELOPER

Push Operations Technology

Developed two products specifically for the catering industry. On the frontend, I built a mobile app that includes a comprehensive list of all employees and their respective details within a month. Besides, I also constructed a complex web application for tracking applicants. On the backend, made improvements on the API in Laravel.

Vancouver, Canada 11/2021 - 10/2022

SOFTWARE DEVELOPER (Front End)

Innova Solutions

Developed web app of management of medical professional's patients, and gain credits from team members by ensuring the quality of UI. Participated in a backend project for doctors as a platform to transfer their patients to other hospitals. I also leveraged AWS services like pinpoint and cloudformation, and got AWS cloud practitioner certificate.

Taipei, Taiwan 11/2019 - 06/2021

SENIOR FRONTEND DEVELOPER

Delta Electronics, Inc

Created task and document management features, as well as file uploading capabilities. Additionally, I code split my JavaScript code on a route level, which helped to ensure that the application loads quickly when initially opened.

In an existing project, I utilized GraphQL to minimize the need for frequent requests to servers.

Taipei, Taiwan 11/2017- 07/2019

FRONTEND DEVELOPER**Eastern Home Shopping & Leisure Co., Ltd**

Improved the page loading speed of a website by implementing various techniques such as lazy loading and image optimization, resulting in an improved review score of 90 on Google PageSpeed. On a biweekly basis, I initiated a study group with my team members to provide tutoring for junior front-end developers.

*Taipei, Taiwan 02/2017 - 11/2017***JUNIOR FRONTEND DEVELOPER****EzTravel Corporation**

Developed websites for booking flight tickets and domestic hotels using jQuery. Discussed with web designers regarding the layout of the company's official website, which included the flight booking and domestic hotel booking systems.

Taipei, Taiwan 02/2014 - 12/2016
